Remarks:

1. Crediting Interest Rate is not guaranteed and is subject to change during the term of the Policy. It may equal to Guaranteed Minimum Crediting Interest Rate in the most adverse situation. The current crediting interest rate declared by FWD Life Insurance Company (Bermuda) Limited (Incorporated in Bermuda with limited liability)(“FWD”, “The Company”) or crediting interest rate history shall in no way be interpreted as a projection or estimation of future return. For crediting interest rate history, investment strategy and philosophy in deciding crediting interest rate, please refer to Important Notes and Declarations point 7.
2. Account Value is the accumulation of total premium paid after deducting Premium Charge with crediting interest added (if any) less Administration Charge, Cost of Insurance, Partial Surrender(s) and the applicable Surrender Charge(s) (if any).
3. In the first two Policy Years, if the crediting interest rate exceeds the Guaranteed Minimum Crediting Interest Rate, an additional amount of 0.20% per annum interest will accrue on the balance of the Account Value.
4. At the Commencement Date and at the Policy Anniversary for each of the first four Policy Years, the total premium paid, less any Partial Surrender (and any Surrender Charge) taken since the inception of the Policy, must be no less than the total Minimum Required Premium for that respective Policy Year. If the total Minimum Required Premium for that respective Policy Year is not met, the Grace Period of 30 days will apply following the relevant Policy Anniversary. The Policy will be terminated⁶ at the end of Grace Period if the Policy Owner has not paid sufficient premium to meet the total Minimum Required Premium for that respective Policy Year within the Grace Period. FWD will pay the Policy Owner the Account Value (if any) less the Surrender Charge (if any).
5. After the Policy is issued, any reduction of the Sum Insured, including a Partial Surrender in excess of the maximum Free Partial Surrender Amount, will not change the Minimum Required Premium.
6. If the Policy is terminated due to the Account Value being less than zero, or the total Minimum Required Premium was not met, this Policy may be reinstated within one year from the date of the termination. Reinstatement is not applicable for a policy which is surrendered.
7. FWD has the absolute discretion to determine the maximum and minimum amount of premiums and reserves the right to refund, reject or limit the amount of premium paid at any time and will not be responsible for any loss arising from or attributable to the decision to refund, reject or limit the amount of premium paid, including but not limited to any interest and deduction of value caused by exchange rate fluctuation.
8. The Free Partial Surrender Amount cannot be accumulated nor carried forward to subsequent Policy Years, and the maximum Free Partial Surrender Amount in any Policy Year will equal 10% of the Account Value as at the Policy Anniversary immediately preceding the Partial Surrender.
9. After each Partial Surrender made in a particular Policy Year, the Free Partial Surrender Amount will be reduced in the same amount of each Partial Surrender, until the remaining Free Partial Surrender Amount equals zero. If a Partial Surrender(s) exceeds the remaining Free Partial Surrender Amount for that Policy Year,
 - (i) the Surrender Charge, once approved by FWD, will be deducted from the Account Value and calculated based on the Partial Surrender(s) exceeds the remaining Free Partial Surrender Amount of each Policy Year.
 - (ii) the Sum Insured will be reduced in the same amount as the reduction of the Account Value of the Policy in excess of the Free Partial Surrender Amount due to the deduction of the Partial Surrender amount and the Surrender Charge (if any) .
10. FWD may defer payment of Partial Surrender or Surrender for a period of up to 6 months from the date of FWD’s receipt of the duly completed request. FWD shall not be liable for any loss incurred as a result of this deferral, including but not limited to interest and deduction of value caused by exchange rate fluctuation. Partial Surrender is also subject to FWD’s rule on maximum number of Partial Surrenders in each Policy Year, minimum and maximum amount to be withdrawn through a Partial Surrender, minimum Sum Insured after Partial Surrender and the minimum remaining Account Value as prescribed by FWD in its sole discretion from time to time.

9. 于个别保单年度，在每次作出部份退保后，免费部份退保金额将以相等至每次部份退保的金额而相应减低，直至余下的免费部份退保金额等于零为止。如部份退保超出该保单年度之余下免费部份退保金额，
 - (i) 退保費用，在經富衛核准後，將就該超額部份於戶口價值中扣除。
 - (ii) 投保額將就該超額部份，以相同金額因應在戶口價值中扣除的部份退保金額及退保費用（如有）而相應調低。
10. 从收到填妥的申请之日起计，富卫可延迟最多六个月才支付部份退保价值及退保价值。富卫毋须就因有关延迟而招致的任何损失承担责任，包括但不限于任何利息及汇率变动而导致之贬值。部份退保亦须符合富卫当时规定之每个保单年度部份退保之最高次数、可透过部份退保提取之最高及最低金额及富卫不时绝对酌情规定的部份退保后之最低投保额及最低剩余户口价值。

11. Upon the death of the Insured, FWD shall deduct from any amount payable under the Policy the amount of unpaid Cost of Insurance, Administration Charge (if any) and Premium Charge (if any) for the whole of the then current year of insurance.

(Please refer to FWD's website for latest information: <https://www.fwd.com.hk/en/regulatory-disclosures/crediting-interest-rate-philosophy/>)

Crediting Interest Rate Philosophy

FWD Life Insurance Company (Bermuda) Limited ("FWD" or "We") issues universal life policies, which credits non-guaranteed interest to the account of the policyholders ("You").

Financial performance covers the experience and future outlook of a numbers of factors, including but not limited to investment performance, expenses, persistency and claim experience. Through the crediting interest rate declaration, you participate in the investment performance of the universal life products after deducting a spread earned by us, and the declared crediting interest rates are floored by the minimum guaranteed crediting interest rate of the product (if any). The declared crediting interest rate of universal life products may also be affected by other factors e.g. expenses, persistency and claim experience.

FWD reviews the crediting interest rate at least annually based on our crediting interest rate policy. The crediting interest rate could be adjusted if the financial performance is different from the expectation, and as a result the actual declared crediting interest rate may be different from the benefit illustrations.

The crediting interest rate recommendation is reviewed and approved by our Board of Directors (the "Board"), with written declaration by the Chairman of the Board, an Independent Non-Executive Director and the Appointed Actuary on due regard to the our crediting interest rate policy as well as the principle of fair treatment of customers.

11. 当被保人身故，富卫将从保单应缴的款项中扣除该整个保单年度尚未缴付之保险成本、行政费用（如有）及保费费用（如有）。

7. 有关过去派息率之资料，请参阅富卫网页 (<https://www.fwd.com.hk/tc/regulatory-disclosures/historical-crediting-interest-rates/>)。以下是富卫派息率的理念、投资策略及投资工具（最新资料请参考富卫网页 <https://www.fwd.com.hk/tc/regulatory-disclosures/dividend-bonus-declaration-philosophy/>）：

派息率的理念

由富卫人寿保险（百慕达）有限公司（「富卫」或「我们」）发出的万能寿险保单会派发非保证利息予保单持有人（「您」）。财务表现包括过去表现和未来展望，涵盖但不限于投资表现、支出费用、续保率和理赔经验。在扣除我们的盈利后，您可以透过厘定派息率分享到万能寿险保单的投资表现。派息率亦会维持不低于最低保证派息率（如有）的水平。除此之外，派息率或会受财务表现涵盖的不同因素影响（例如支出费用、续保率和理赔经验）。

根据我们的派息率政策，富卫最少每年检视派息率一次。如财务表现与预期有别，我们可能会作出调整，以致实际厘定的派息率跟权益说明文件存有差异。

派息率建议会由我们的董事会检视及批核，再由董事会主席、一位独立非执行董事及委任精算师在适当考虑派息率政策及公平待客原则下以书面形式公布。

我们会每年最少一次通知您今年及预计派息率。如今年及预计派息率有所变更，将于保单年结通知书上列明。

The current year and projected crediting interest rate would be communicated to you at least annually. Any changes in the current year and projected crediting interest rate will be reflected in the policy annual statement.

Smoothing

Financial performance is unforeseeable. To facilitate your financial planning, we have a smoothing process aiming to declare more stable crediting interest rates during the policy term.

When the financial performance is better (worse) than expected, we may hold back a portion of the gains (losses), which will be passed back to you over the future years to ensure more stable crediting interest rates. Due to the variation of features and benefits of different products, different levels of smoothing may also be applied.

Pooling

Consistent with the nature of insurance contracts, we also group similar policies together to pool the risks amongst a larger number of policyholders to provide diversification benefits, which helps to stabilize the financial performance (hence the crediting interest rates).

To maintain the fairness between policyholders, we may also separate different generations of policies of the same product into different buckets with different crediting interest rates, with an aim to more closely reflect the underlying financial performance. As a result, the frequency and magnitude of the crediting interest rate scale adjustments may vary among different products and buckets. In general, the adjustments on crediting interest rates are more frequent and significant for products with higher risk profile.

Investment Strategy

FWD’s investment strategies are customized for different products to optimize the return. In particular, these asset portfolios employ a balanced asset allocation investment strategy, which consists of

- Investment-grade fixed income type securities
- Equity-type investments to enhance the investment performance in the long run. This may include listed equity, hedge funds, mutual funds, private equity and property
- Reinsurance assets with good credit rating

The current long-term target asset allocation of this Product is as follows:

Asset Type	Target asset allocation (%)
Fixed income type securities	75% - 95% of Target
Equity-type investments	5% - 25% of Target

The asset portfolios also targets to provide diversification across different geographic regions and industries to the extent the size of portfolio can support.

Currency exposure of the underlying policies is mitigated by closely matching either through direct investments in the same currency denomination or the use of currency hedging instruments. Currently, the majority of the asset is invested in the United States and Asia Pacific and denominated in USD.

Furthermore, the asset portfolio is actively managed by investment professionals to closely monitor the investment performance. In addition to conducting regular review, FWD also reserves the right to change the investment strategy and shall notify policyholders of any material changes.

Investment Vehicle

The crediting interest rate will be influenced by the performance of the underlying investment portfolio, which consists of both fixed income type securities and equity-type investments. The performance is not static and will be highly affected by the change in market conditions:

Fixed income type securities

- The return of fixed income type securities arise from the interest income (“the yield”) attained at the purchase of the securities. Under a higher (lower) market interest rates environment, the company is more likely to attain higher (lower) interest income with the new money (e.g., proceeds from coupons, maturities, new contributions);
- The defaults or downgrades of the fixed income type securities will result in unfavorable investment performance.

Equity-type investments

- The movement of the market price of the equity-type investments will result in change in the market value of the portfolio. Rise (fall) in the market price will increase (decrease) the market value of the portfolio.
- The change in dividend-type income from the equity-type investments will impact the investment results. Higher (lower) dividend-type income from the underlying investment will improve (worsen) the investment results.

缓和调整机制

财务表现是难以准确预测的。为了协助您去策划财务，我们会以一个缓和调整机制以求使保单年期内的派息率更稳定。当财务表现较预期好（差），我们可能会保留部分盈馀（亏损），于未来的年份反映出来，以确保您会获更稳定的派息率。因产品各具特色，我们会采取不同程度的缓和调整。

汇集保单

贯彻保险合同的本质，我们亦会将类近的保单汇集，以便分散保单持有人面对的风险。此举有助稳定财务表现（和派息率）。为使每位保单持有人能得到合理的分配，我们或会将同一产品按批次派发不同的派息率，以更准确反映相应财务表现。因此，不同产品及不同批次之间的派息率调整的次数及幅度可能会有所不同。一般而言，较高风险的产品的派息率调整次数及幅度会较高。

投资策略

为优化回报，富卫的投资策略会按不同产品而制定。这些资产组合采取均衡分布投资策略，包括：

- 投资级别的固定收益类型证券
- 股权类投资，以提高长远的投资表现。投资可包括上市股票、对冲基金、共同基金、私募股权和房地产
- 具良好信用评级的再保险资产

此产品的长期资产配置如下：

资产类型	目标资产配置比重 (%)
固定收益类型证券	目标之75% - 95%
股权类型投资	目标之5% - 25%

资产组合会按照投资规模，横跨于不同地区及行业，以分散投资风险。

同时，我们会根据保单货币选择作出该货币的直接投资或使用货币对冲工具，使保单的货币风险得以缓解。目前来说，大部分资产投资于美国和亚太地区，并以美元计算。

此外，投资专家还积极管理资产组合，密切监察投资表现。除了定期检视外，富卫还保留更改投资策略的权利，并将任何重大变更通知保单持有人。

投资工具

派息率将会被有关投资组合的表现影响，其中包括固定收益类型证券和股权类型投资。有关表现并非不变及将会被市场环境的变化所影响：

固定收益类型证券

- 固定收益类型证券的回报来自购买证券后所得的利息收入。在一个较高（较低）的市场利率环境下，公司较大机会从新资金中（例如：来自票息，期满收益，新供款的收入）得到较高（较低）的利息收入；
- 固定收益类型证券违约或其评级下跌将不利于投资回报。

股权类型投资

- 股权类型投资的市价变动将导致投资组合的市值有所变化。市场价格上升（下跌）会令投资组合的市场价值上调（下调）。
- 股权类型投资中红利类型收入的变动将影响投资结果。从有关投资中得到较高（较低）红利类型收入会改善（亏损）投资回报。

What are the key product risks?

Credit risk

This product is an insurance policy issued by the Company. The application of this insurance product and all benefits payable under your policy are subject to the credit risk of the Company. You will bear the default risk in the event that the Company is unable to satisfy its financial obligations under this insurance contract.

Liquidity risk

This product is a long term insurance policy. This policy of long term insurance will be made for certain determined term of years starting from the policy effective date to the policy maturity date. The policy contains value and, if you surrender your policy in the early policy years or before its maturity date, the amount you get back may be considerably less than the total premium you have paid. Application of the Plan may constitute the liquidity risk to your financial condition. You need to bear the liquidity risk associated with the Plan.

Exchange rate and currency risk

The application of this insurance product with the policy currency denominated in a foreign currency is subject to that foreign currency's exchange rate and currency risk. The foreign currency may be subject to the relevant regulatory bodies' control (for example, exchange restrictions). If your home currency is different from the policy currency, please note that any exchange rate fluctuation between your home currency and the policy currency of this insurance product will have a direct impact on the amount of premium required and the value of benefit(s) to be received. For instance, if the policy currency of the insurance product depreciates substantially against your home currency, there is a negative impact on the benefits you receive from the product. If the policy currency of the insurance product appreciates substantially against your home currency, your burden of the premium payment is increased.

Inflation risk

The cost of living in the future may be higher than now due to the effects of inflation. Therefore, the benefits under this policy may not be sufficient for the increasing protection needs in the future even if the Company fulfills all of its contractual obligations.

Early surrender risk

If you surrender your policy in the early policy years or before its maturity date, the amount of the benefit you will get back may be considerably less than the total amount of the premiums you paid.

Non-guaranteed benefits

Non-guaranteed benefits (including Crediting Interest Rate) are not guaranteed and are determined at FWD's discretion based on its Crediting Interest Rate philosophy.

Premium term and non-payment of premium

At the Commencement Date and at the Policy Anniversary for each of the first four Policy Years, the total premium paid, less any Partial Surrender (and any Surrender Charge) taken since the inception of the Policy, must be no less than the total Minimum Required Premium for that respective Policy Year. FWD allows a Grace Period of 30 days following the relevant Policy Anniversary where the total Minimum Required Premium is not met. If the total Minimum Required Premium is not met at the expiration of the Grace Period, the policy will be terminated. FWD will pay the Policy Owner the Account Value (if any) less the Surrender Charge (if any).

Termination conditions

The Policy shall terminate on the earliest of the following: 1. The Death of Insured 2. The Expiry Date of this Policy. 3. The date of Policy surrender. Such date is determined in accordance with the Company's applicable rules and regulations in relation to Policy surrender. 4. When the Account Value of the Policy is less than zero. 5. The end of Grace Period of any premiums due and not received by the Company.
